CLINIC POLICY

Staffing

• A qualified first aider is on duty from 7.30am until 3:10pm.

Admission Medical Questionnaire

- All parents must complete the Medical Questionnaire **before** their child enters the school.
- Any child with a medical condition is identified and further medical information may be required.
- Letters are sent to parents of children with asthma, allergies, epilepsy, etc., for more detailed information.
- Should your child's medical condition/medication change during the year it is requested that you inform the clinic.

Medical file

- Each student has a medical file. Allergies and significant medical problems are highlighted on the file. Current medications are recorded in the file.
- All medications given in school will be recorded in the file and a letter will be completed for the parents that will be given to the student or the student's class teacher.
- All medical files are treated as confidential and are kept in a locked filing cabinet in the clinic. Only
 nurses and the Principal have access to these records, unless permission is given by the parents or the
 student, (if old enough to consent), for other staff members to view. All correspondence from parents,
 teachers and medical personnel are attached to the student's file, as are updated addresses and phone
 numbers.

Student's medication

- All medication brought into school by students **must** be kept in the clinic. The medication should be accompanied with a note from the parents detailing dosage and time to be administered. The student will be told when to come to the clinic and the medication will be given at the correct time.
- When the medication needs replacing because it has expired or finished a letter will be sent via the student.
- All prescription medications must be kept in the clinic and administered by the First Aider (or under the directive of). Exceptions are asthma inhalers, EpiPens and diabetic medications. Students may only carry these medications if they are proficient in their use.
- All unused medication left at the end of the school year will be disposed of.
- Authorisation for a first aider to administer over-the-counter medication to students is implied by signing the consent to treatment on the medical questionnaire.

STUDENT SICKNESS

- Should a student become injured or sick during school hours, the student must notify a member of staff and be seen by the school first aider. The first aider will assess and treat the student and, if necessary give permission for them to be excused from class/classes.
- When it is considered necessary for the student to be sent home parents will be contacted and asked to arrange immediate collection.
- In most incidences, students will remain in clinic until collection.
- Parents must be contactable at all times and are expected to collect their child within a reasonable time frame, (approx. 1 hour after initial contact)
- Please ensure you have the school phone number keyed into your mobile.
- If a driver is sent to collect the student, he should, if possible, have a note from the parents, or his name and igama number should be obtained.
- The student must recognise his/her driver.
- Parents are advised that students who are ill prior to the start of the school day **must** remain at home.
- Communicable diseases are common among school children and school provides an ideal environment for diseases to spread. Some diseases present a risk to others such as **pregnant women** and students may need to be excluded.
- Students who are not well should be excluded even if they are not infectious.
- Students and staff should be excluded if they have diarrhoea or vomiting and they should not return to school until they have been symptom free for 48 hours, (unless the cause is non-infectious ie.travel sickness or coeliac disease).
- Letters to parents advising of medical treatment given in school.
- A letter is always sent to parents when a student has a head injury, any serious accident or has an illness that has been treated with medication.
- If a student has a medical problem, no matter how minor, parents will be contacted by phone or letter.

Emergencies

• In the event of an emergency, the student will be transferred to a suitable medical facility, parents will be contacted as soon as possible so they may join their child.

- 2) Attempt to pull down their underwear and pants and get them back up.
- 3) Be able to wipe themselves after using the toilet.
- 4) Be able to get off the toilet by themselves.
- 5) Attempts to wash and dry their hands.
